RAPTOR PROTECTOR™
For Trunnion Mount Insulators
Patented
PLP® Distribution Products

RAPTOR PROTECTOR™ for Trunnion Mount Insulators

**Description**
The patented RAPTOR PROTECTOR is designed to provide protection from incidental avian contact with overhead distribution lines. It provides an economical means of reducing bird fatalities and line outages when installed over single horizontally or vertically mounted trunnion mounted insulators.

Manufactured from linear low density polyethylene (LLDPE)
- Fully UV stabilized
- Low temperature impact resistant
- Environmental stress crack resistance

**Application**
Installs on single insulator in seconds

Insulator shield can be easily and instantly modified for custom fit
- Covers up to 1.25” diameters

Round Eye Locking Pins
- Easily installed by hand or hot stick
- Ensures positive lock on conductor
- Included with every protector

**Features**
- One piece design
- Lightweight
- Low profile
- Unobtrusive appearance
- Minimized wind loading
- Flexible to handle line angles up to 10°
- Long service life without deterioration of material
- 42 kV dielectric strength – Ideal for 35 kV systems
- Easily installed by hand or hot stick
- **Includes** four (4) Round Eye Lock Pins
