SWAN-FLIGHT DIVERTER

Be sure to read and completely understand this procedure before applying product. Be sure to select the proper PREFORMED™ product before application.

**GENERAL**

The Preformed Line Products SWAN-FLIGHT Diverter is a simple and easily applied product that is designed to make overhead lines and tower down guys more visible to birds. Offering little wind resistance, it is designed to reduce hazards to both lines and birds.

**APPLYING THE SWAN-FLIGHT DIVERTER**

**Step #1** Spacing should be calculated at one SWAN-FLIGHT Diverter every 15 feet for maximum visibility. For down guy applications, cease placement at distances less than 10' from the ground.

**Step #2** Slip the large center section of the SWAN-FLIGHT Diverter onto the conductor or the strand.

**Step #3** Rotate the SWAN-FLIGHT Diverter until the first gripping section on both sides lay naturally along the conductor or strand. Before wrapping the helix, ensure that the SWAN-FLIGHT Divers are spaced correctly as outlined in Step 1.

**Step #4** Wrap the gripping section on both ends around the conductor or strand.

**Step #5** The application of the SWAN-DIVERTER is now complete.
SAFETY CONSIDERATIONS

This application procedure is not intended to supersede any company construction or safety standards. This procedure is offered only to illustrate safe application for the individual. **FAILURE TO FOLLOW THESE PROCEDURES MAY RESULT IN PERSONAL INJURY OR DEATH.**

Do not modify this product under any circumstances.

This product is intended for use by trained technicians only. **This product should not be used by anyone who is not familiar with, and not trained to use it.**

When working in the area of energized lines, extra care should be taken to prevent accidental electrical contact.

For proper performance and personal safety, be sure to select the proper size PREFORMED product before application.

PREFORMED products are precision devices. To insure proper performance, they should be stored in cartons under cover and handled carefully.
