Be sure to read and completely understand this procedure before applying product. Be sure to select the proper PREFORMED™ product before application.

Step #1  Allow 18” from the inside of the stake to the center mark. Shown above is the VINE-LINE Connector ready to be installed.

Step #2  After the wire is wrapped around a stake or pulled through a dead-end, start applying the Connector to the tail end of the wire. Be sure to start the application at the center mark on the Connector.

Step #3  Pull the Connector and wire until the wire is tight, and wrap the other half of the Connector onto the wire.

Step #4  Make sure the ends are snapped into place.

Step #5  Completed application of the VINE-LINE Connector on a stake.

Step #6  The same procedure is used to apply the VINE-LINE Connector to a Dead-end Anchor. Note: It is not necessary to allow 18 inches as shown in Step #1.

**CATALOG NUMBER** | **WIRE** | **GAUGE** | **DIAMETER (IN)** | **COLOR CODE**  
--- | --- | --- | --- | ---  
2602-100 | 15 | .072” | RED  
2602-101 | 14 | .080” | BLUE  
2602-102 | 13, 12.5 | .091”, .100” | GREEN  
2602-103 | 12 | .1055” | BLACK  
2602-104 | 11 | .1205” | GREEN  
2601-105 | 10 | .1305” | ORANGE  
2601-106 | 9 | .1483” | RED  
2601-107 | 8 | .162” | BLUE

VINE-LINE® Connector
for splicing, joining, extending trellis wire

Step #1 Two VINE-LINE Connector units are required to make a straight line splice.

Step #2 At the center mark, apply half the length of one Connector unit onto one wire by wrapping as shown.

Step #3 Wrap the rest of Connector onto the second wire as shown.

Step #4 Hold the second Connector unit in the position shown, and match up the center marks. Then wrap on completely.

Step #5 Make sure all ends are snapped into place.

Step #6 A VINE-LINE Connector full-strength splice completely applied.

SAFETY CONSIDERATIONS

This application procedure is not intended to supersede any company construction or safety standards. This procedure is offered only to illustrate safe application for the individual. FAILURE TO FOLLOW THESE PROCEDURES MAY RESULT IN PERSONAL INJURY OR DEATH.

This product is intended for a single (one time) use and for the specified application. Do not reuse or modify this product under any circumstances. This product is intended for use by trained technicians only. This product should not be used by anyone who is not familiar with, and not trained to use it.

When working in the area of energized lines, extra care should be taken to prevent accidental electrical contact.

For proper performance and personal safety, be sure to select the proper size PREFORMED™ product before application.

PREFORMED products are precision devices. To insure proper performance, they should be stored in cartons under cover and handled carefully.
