

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549**

FORM 10-Q

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended March 31, 2009

Commission file number: 0-31164

Preformed Line Products Company
(Exact Name of Registrant as Specified in Its Charter)

<u>Ohio</u> (State or Other Jurisdiction of Incorporation or Organization)	<u>34-0676895</u> (I.R.S. Employer Identification No.)
<u>660 Beta Drive Mayfield Village, Ohio</u> (Address of Principal Executive Office)	<u>44143</u> (Zip Code)
<u>(440) 461-5200</u> (Registrant's telephone number, including area code)	

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The number of common shares outstanding as of May 1, 2009: 5,228,630.

PREFORMED LINE PRODUCTS COMPANY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

In thousands, except share and per share data, unless specifically noted

NOTE A – BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements of Preformed Line Products Company (the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X.

The preparation of these consolidated financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from these estimates. However, in the opinion of management, these consolidated financial statements contain all estimates and adjustments, consisting of normal recurring accruals, required to fairly present the financial position, results of operations, and cash flows for the interim periods. Operating results for the three month period ended March 31, 2009 are not necessarily indicative of the results to be expected for the year ending December 31, 2009.

The consolidated balance sheet at December 31, 2008 has been derived from the audited consolidated financial statements, but does not include all of the information and notes required by U.S. generally accepted accounting principles for complete financial statements. For further information, refer to the consolidated financial statements and notes to consolidated financial statements included in the Company's 2008 Annual Report on Form 10-K filed on March 13, 2009 with the Securities and Exchange Commission.

Reclassifications

Certain prior period amounts have been reclassified to conform to current year presentation.

NOTE B – OTHER FINANCIAL STATEMENT INFORMATION

Inventories – net

	<u>March 31</u> 2009	<u>December 31</u> 2008
Finished products	\$ 19,907	\$ 21,829
Work-in-process	2,520	2,382
Raw materials	<u>31,719</u>	<u>32,231</u>
	54,146	56,442
Excess of current cost over LIFO cost	(4,655)	(5,122)
Noncurrent portion of inventory	<u>(3,581)</u>	<u>(2,908)</u>
	<u>\$ 45,910</u>	<u>\$ 48,412</u>

Noncurrent inventory is included in other assets on the consolidated balance sheets and is principally comprised of raw materials.

Property and equipment - net

Major classes of property and equipment are stated at cost and were as follows:

	<u>March 31</u> <u>2009</u>	<u>December 31</u> <u>2008</u>
Land and improvements	\$ 5,362	\$ 5,490
Buildings and improvements	46,453	47,048
Machinery and equipment	90,702	91,097
Construction in progress	<u>3,264</u>	<u>2,133</u>
	145,781	145,768
Less accumulated depreciation	<u>90,772</u>	<u>89,828</u>
	<u>\$ 55,009</u>	<u>\$ 55,940</u>

Property and equipment are recorded at cost. Depreciation for the Company's PLP-USA assets prior to January 1, 2009 were computed using accelerated methods over the estimated useful lives, with the exception of personal computers, which were depreciated over three years using the straight-line method. Effective January 1, 2009, the Company changed its method of computing depreciation from accelerated methods to the straight-line method for the Company's PLP-USA assets. Based on Statement of Financial Accounting Standards (SFAS) No. 154, "Accounting Changes and Error Corrections" (FAS 154), the Company determined that the change in depreciation method from an accelerated method to a straight-line method is a change in accounting estimate affected by a change in accounting principle. Per FAS 154, a change in accounting estimate affected by a change in accounting principle is to be applied prospectively. The change is considered preferable because the straight-line method will more accurately reflect the pattern of usage and the expected benefits of such assets and provide greater consistency with the depreciation methods used by other companies in the Company's industry. The net book value of assets acquired prior to January 1, 2009 with useful lives remaining will be depreciated using the straight-line method prospectively. As a result of the change to the straight-line method of depreciating PLP-USA's assets, depreciation expense decreased \$.1 million for the three month period ended March 31, 2009 and the decrease is expected to approximate such amount in each of the remaining quarters in 2009.

Depreciation for the remaining assets is computed using the straight-line method over the estimated useful lives. The estimated useful lives used, when purchased new, are: land improvements, ten years; buildings, forty years; building improvements, five to forty years; and machinery and equipment, three to ten years. Appropriate reductions in estimated useful lives are made for property, plant and equipment purchased in connection with an acquisition of a business or in a used condition when purchased.

Comprehensive income

The components of comprehensive income (loss) are as follows:

	<u>PLPC</u>		<u>Noncontrolling interest</u>		<u>Total</u>	
	<u>Three month period</u>		<u>Three month period</u>		<u>Three month period</u>	
	<u>ended March 31</u>		<u>ended March 31</u>		<u>ended March 31</u>

available-for-sale securities, net of tax	(88)	-	-	-	(88)	-
Foreign currency translation adjustments	(3,249)	1,904	(3)	-	(3,252)	1,904
Recognized net actuarial loss	83	4	-	-	83	4
Total other comprehensive income (loss), net of tax	<u>(3,254)</u>	<u>1,908</u>	<u>(3)</u>	<u>-</u>	<u>(3,257)</u>	<u>1,908</u>
Comprehensive income (loss)	<u>\$ (532)</u>	<u>\$ 4,858</u>	<u>\$ (8)</u>	<u>\$ 33</u>	<u>\$ (540)</u>	<u>\$ 4,891</u>

Legal proceedings

From time to time, the Company may be subject to litigation incidental to its business. The Company is not a party to any pending legal proceedings that the Company believes would, individually or in the aggregate, have a material adverse effect on its financial condition, results of operations, or cash flows.

NOTE C – PENSION PLANS

PLP-USA hourly employees of the Company who meet specific requirements as to age and service are covered by a defined benefit pension plan. The Company uses a December 31 measurement date for this plan. Net periodic benefit cost for the Company's PLP-USA plan included the following components:

	Three month period ended March 31	
	2009	2008
Service cost	\$ 216	\$ 167
Interest cost	292	256
Expected return on plan assets	(183)	(261)
Recognized net actuarial loss	132	6
Net periodic benefit cost	<u>\$ 457</u>	<u>\$ 168</u>

During the three month period ended March 31, 2009, \$.3 million of contributions have been made to the plan. The Company presently anticipates contributing an additional \$1 million to fund its pension plan in 2009.

NOTE D – COMPUTATION OF EARNINGS PER SHARE

Basic earnings per share were computed by dividing net income by the weighted-average number of shares of common stock outstanding for each respective period. Diluted earnings per share were calculated by dividing net income by the weighted-average of all potentially dilutive shares of common stock that were outstanding during the periods presented.

The calculation of basic and diluted earnings per share for the three month periods ended March 31, 2009 and 2008 were as follows:

	For the three month period ended March 31	
	2009	2008
Numerator		
Amount attributable to PLPC shareholders		
Income from continuing operations	\$ 2,722	\$ 2,801
Income from discontinued operations	-	149
Net income	<u>\$ 2,722</u>	<u>\$ 2,950</u>
Denominator (in thousands)		
Determination of shares		
Weighted-average common shares outstanding	5,225	5,382
Dilutive effect - share-based awards	80	49
Diluted weighted-average common shares outstanding	<u>5,305</u>	<u>5,431</u>
Earnings per common share attributable to PLPC shareholders		
Basic		
Income from continuing operations	<u>\$ 0.52</u>	<u>\$ 0.52</u>
Income from discontinued operations	<u>\$ -</u>	<u>\$ 0.03</u>
Net income	<u>\$ 0.52</u>	<u>\$ 0.55</u>
Diluted		
Income from continuing operations	<u>\$ 0.51</u>	<u>\$ 0.52</u>
Income from discontinued operations	<u>\$ -</u>	<u>\$ 0.02</u>
Net income	<u>\$ 0.51</u>	<u>\$ 0.54</u>

For the three month period ended March 31, 2009, 13,000 stock options were excluded from the calculation of diluted earnings per share due to the average market price being lower than the exercise price, and as such they are anti-dilutive.

NOTE E – GOODWILL AND OTHER INTANGIBLES

The Company's finite and indefinite-lived intangible assets consist of the following:

	March 31, 2009		December 31, 2008	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Finite-lived intangible assets				
Patents	\$ 4,807	\$ (2,979)	\$ 4,807	\$ (2,901)
Land use rights	1,191	(37)	1,350	(32)
Customer relationships	1,003	(410)	1,003	(369)
	<u>\$ 7,001</u>	<u>\$ (3,426)</u>	<u>\$ 7,160</u>	<u>\$ (3,302)</u>
Indefinite-lived intangible assets				
Goodwill	<u>\$ 5,296</u>		<u>\$ 5,520</u>	

The Company performs its annual impairment test for goodwill and intangibles with indefinite lives utilizing a discounted cash flow methodology, market comparables, and an overall market capitalization reasonableness test in computing fair value by reporting unit. The Company then compares the fair value of the reporting unit with its carrying value to assess if goodwill and other indefinite life intangibles have been impaired. Based on the assumptions as to growth, discount rates and the weighting used for each respective valuation methodology, results of the valuations could be significantly changed. However, the Company believes that the methodologies and weightings used are reasonable and result in appropriate fair

values of the reporting units.

The Company performed its annual impairment test for goodwill pursuant to SFAS No. 142, "Goodwill and Intangible Assets" as of January 1, 2009, and determined that no adjustment to the carrying value of goodwill was required. The aggregate amortization expense for other intangibles with finite lives for each of the three month periods ended March 31, 2009 and 2008 was \$.1 million. Amortization expense is estimated to be \$.5 million annually for 2009 and 2010 and \$.4 million annually for 2011 through 2013.

The Company's only intangible asset with an indefinite life is goodwill. The changes in the carrying amount of goodwill, by segment, for the three month period ended March 31, 2009, are as follows:

	<u>Australia</u>	<u>South Africa</u>	<u>Poland</u>	<u>All Other</u>	<u>Total</u>
Balance at January 1, 2009	\$ 1,735	\$ 41	\$ 1,140	\$ 2,604	\$ 5,520
Currency translation	<u>(18)</u>	<u>(1)</u>	<u>(204)</u>	<u>(1)</u>	<u>(224)</u>
Balance at March 31, 2009	<u>\$ 1,717</u>	<u>\$ 40</u>	<u>\$ 936</u>	<u>\$ 2,603</u>	<u>\$ 5,296</u>

NOTE F – SHARE-BASED COMPENSATION

The 1999 Stock Option Plan

The 1999 Stock Option Plan (the Plan) permits the grant of 300,000 options to buy common shares of the Company to certain employees at not less than fair market value of the shares on the date of grant. At March 31, 2009, there were 9,000 options remaining available for issuance under the Plan. Options issued to date under the Plan vest 50% after one year following the date of the grant, 75% after two years, and 100% after three years, and expire ten years from the date of grant. Shares issued as a result of stock option exercises will be funded with the issuance of new shares.

There were no options granted during the three month periods ended March 31, 2009 and 2008.

Activity in the Company's stock option plan for the three month period ended March 31, 2009 was as follows:

	<u>Number of Shares</u>	<u>Weighted- Average Exercise Price per Share</u>	<u>Weighted- Average Remaining Contractual Term (Years)</u>	<u>Aggregate Intrinsic Value</u>
Outstanding at January 1, 2009	107,092	\$27.83		
Granted	-	-		
Exercised	(1,800)	\$18.52		
Forfeited	<u>-</u>	<u>-</u>		
Outstanding (vested and expected to vest) at March 31, 2009	<u>105,292</u>	\$27.99	5.0	\$1,250
Exercisable at March 31, 2009	<u>88,542</u>	\$24.20	4.1	\$1,242

The total intrinsic value of stock options exercised during the three month periods ended March 31, 2009 and 2008 was less than \$.1 million for each period. Cash received for the exercise of stock options during 2009 was less than \$.1 million. The total fair value of stock options vested during the three month periods ended March 31, 2009 and 2008 was less than \$.1 million for each period.

For the three month periods ended March 31, 2009 and 2008, the Company recorded compensation expense related to the stock options of less than \$.1 million. The total compensation cost related to nonvested awards not yet recognized at March

31, 2009 approximates \$.2 million over the next two years.

Long Term Incentive Plan of 2008

Under the Preformed Line Products Company Long Term Incentive Plan of 2008 (the “LTIP”), certain employees, officers and directors will be eligible to receive awards of options and restricted shares. The purpose of this LTIP is to give the Company and its subsidiaries a competitive advantage in attracting, retaining and motivating officers, employees and directors and to provide an incentive to those individuals to increase shareholder value through long-term incentives directly linked to the Company’s performance. The total number of Company common shares reserved for awards under the LTIP is 400,000. Of the 400,000 common shares, 300,000 common shares have been reserved for restricted share awards and 100,000 common shares have been reserved for share options. The LTIP expires on April 17, 2018.

For all of the participants except the CEO, a portion of the restricted share award is subject to time-based cliff vesting and a portion is subject to cliff-vesting based upon the Company’s level of performance over the vesting period. All of the CEO’s restricted shares are subject to vesting based upon the Company’s performance over the vesting period.

Because the award of restricted share is compensatory the restricted shares are granted at no cost to the employees; however, the participant must remain employed with the Company until the restrictions on the restricted shares lapse. The fair value of restricted share awards is based on the market price of an unrestricted common share on the grant date. The Company currently estimates that no awards will be forfeited.

A summary of the restricted share awards for the three month period ended March 31, 2009 is as follows:

	Restricted Share Awards			Weighted-Average Grant-Date Fair Value
	Performance and Service Required	Service Required	Total Restricted Awards	
Nonvested as of January 1, 2009	39,364	4,273	43,637	\$ 54.74
Granted	75,982	8,202	84,184	29.75
Vested	-	-	-	-
Forfeited	-	-	-	-
Nonvested as of March 31, 2009	<u>115,346</u>	<u>12,475</u>	<u>127,821</u>	<u>\$ 38.28</u>

For time-based awards, the Company recognizes compensation expense on a straight-line basis over the requisite service period of the award in General and administrative expense. As of March 31, 2009, there was \$.4 million of total unrecognized compensation cost related to time-based restricted share awards that is expected to be recognized over the weighted-average remaining period of 30 months. For the three month period ended March 31, 2009, time-based compensation expense was not significant.

For the performance-based awards, the number of restricted shares in which the participants will vest depends on the Company’s level of performance measured by growth in pretax income and sales over a requisite performance period. Depending on the extent to which the performance criteria are satisfied under the LTIP, the participants are eligible to earn common shares at the end of the vesting period. Performance-based compensation expense for the period ended March 31, 2009 was \$.3 million and is recorded in General and administrative expense. As of March 31, 2009, the remaining performance-based restricted share awards compensation expense of \$3.8 million is expected to be recognized over a weighted-average remaining period of 22 months.

In the event of a Change in Control, vesting of the restricted shares will be accelerated and all restrictions will lapse. Unvested performance-based awards are based on a maximum potential payout. Actual shares awarded at the end of the performance period may be less than the maximum potential payout level depending on achievement of performance-based award objectives.

Dividends declared on 2009 grants and thereafter will be accrued in cash dividends.

To satisfy the vesting of its restricted share awards, the Company has reserved new shares from its authorized but unissued

shares. Any additional granted awards will also be issued from the Company's authorized but unissued shares. Under the LTIP there are 172,179 common shares currently available for additional grants.

NOTE G – FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, "Fair Value Measurements" (SFAS 157). This standard defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. This standard does not require new fair value measurements. This standard was effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal periods. This standard enables the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. The standard requires that assets and liabilities carried at fair value to be classified and disclosed in one of the following three categories: Level 1: Quoted market prices in active markets for identical assets or liabilities; Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data; or Level 3: Unobservable inputs that are not corroborated by market data.

In February 2008, the FASB issued FASB Staff Position No. 157-2, "Effective Date of FASB Statement No. 157" (FSP 157-2), which delays the effective date of SFAS 157 for all nonrecurring fair value measurements of nonfinancial assets and nonfinancial liabilities until fiscal years beginning after November 15, 2008. FSP 157-2 stated that a measurement is recurring if it happens at least annually and defined nonfinancial assets and nonfinancial liabilities as all assets and liabilities other than those meeting the definition of a financial asset or financial liability in SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment to FAS No. 115" (SFAS 159). The Company adopted FSP 157-2 on January 1, 2008 as it relates to financial assets and financial liabilities and adopted SFAS 157 as it relates to nonfinancial assets and liabilities on January 1, 2009, and these adoptions did not have an impact on the Company's consolidated financial statements.

NOTE H – RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities" (SFAS 161). SFAS 161 requires companies with derivative instruments to disclose information on how derivative instruments and related hedged items are accounted for under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities, and how derivative instruments and related hedged items affect a Company's financial position, financial performance and cash flows." SFAS 161 was effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The adoption of SFAS 161 did not have a material impact on the Company's financial condition, results of operations, or cash flows.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51" (SFAS 160). This standard amends ARB No. 51 to establish accounting and reporting for the noncontrolling interest in a subsidiary and for deconsolidation of a subsidiary. It also amends certain of ARB No. 51's consolidation procedures for consistency with the requirements of SFAS No. 141R, "Business Combinations." This standard became effective on January 1, 2009. As SFAS 160 is applied prospectively to future business combinations, the only impact to the Company is the retroactive presentation and disclosure requirements for all periods presented on the Company's consolidated financial statements of noncontrolling interests.

In December 2007, the FASB issued SFAS No. 141R, "Business Combinations" (SFAS 141R). SFAS 141R revises the principles and requirements for how the acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, any noncontrolling interest in the acquiree and the goodwill acquired in a business combination or gain from a bargain purchase. SFAS 141R also revises the principles and requirements for how the acquirer determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. This pronouncement became effective for the Company as of January 1, 2009. The adoption of this statement will only impact the Company's consolidated financial statements to the extent the Company enters into a business acquisition in the future.

In April 2008, the FASB issued FAS 142-3, "Determination of the Useful Life of Intangible Assets" (FSP 142-3). FSP 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the

useful life of a recognized intangible asset under SFAS No. 142, "Goodwill and Other Intangible Assets" (SFAS 142). The intent of FSP 142-3 is to improve the consistency between the useful life of a recognized intangible asset under SFAS 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS 141R and other U.S. generally accepted accounting principles. FSP 142-3 applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning after December 15, 2008. The adoption of this statement will only impact the Company's consolidated financial statements to the extent the Company enters into a business acquisition in the future.

In June 2008, the FASB issued FSP Emerging Issues Task Force (EITF) 03-6-1, "Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities" (FSP EITF 03-6-1). FSP EITF 03-6-1 provides that unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of earnings per share pursuant to the two-class method in SFAS No. 128, "Earnings per Share." The Company adopted FSP EITF 03-6-1 as of January 1, 2009. The adoption of FSP EITF 03-6-1 did not have an impact on the Company's consolidated financial statements.

In April 2009, the FASB issued FSP 141R-1, "Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies" (FSP 141R-1). FSP 141R-1 amends and clarifies SFAS 141R to require that an acquirer recognize at fair value, at the acquisition date, an asset acquired or a liability assumed in a business combination that arises from a contingency if the acquisition-date fair value of that asset or liability can be determined during the measurement period. If the acquisition-date fair value of such an asset acquired or liability assumed cannot be determined, the acquirer should apply the provisions of SFAS 5, "Accounting for Contingencies," to determine whether the contingency should be recognized at the acquisition date or there after. FSP 141R-1 is effective for assets or liabilities arising from contingencies in business combinations for which the acquisition date is after the beginning of the first annual reporting period beginning after December 15, 2008. Accordingly, the Company adopted FSP 141R-1 at the same time as SFAS 141R. The adoption of this statement will only impact the Company's consolidated financial statements to the extent the Company enters into a business acquisition in the future.

NOTE I – RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In April 2009, the FASB issued FSP No. 107-1 and APB 28-1, "Interim Disclosures about Fair Value of Financial Instruments" (FSP FAS 107-1 and APB 28-1), which amends FASB Statement No. 107, "Disclosures about Fair Value of Financial Instruments" and APB Opinion No. 28, "Interim Financial Reporting," to require disclosures about the fair value of financial instruments for interim reporting periods. FSP FAS 107-1 and APB 28-1 will be effective for interim reporting periods ending after June 15, 2009. The Company believes the adoption of this staff position will not have a material impact on the Company's financial position or results of operation.

In April 2009, the FASB issued FSP No. 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly" (FSP FAS 157-4), which provides additional guidance in accordance with FAS 157, when the volume and level of activity for the asset or liability has significantly decreased. FSP FAS 157-4 will be effective for interim and annual reporting periods ending after June 15, 2009. The Company has not determined the impact of its adoption of this staff position.

In April 2009, the FASB issued FSP FAS 115-2 and FAS 124-2, "Recognition and Presentation of Other-Than-Temporary Impairments" (FSP FAS 115-2 and FAS 124-2), which amends the other-than-temporary impairment guidance for debt and equity securities. FSP FAS 115-2 and FAS 124-2 will be effective for interim and annual reporting periods ending after June 15, 2009. The Company has not determined the impact of its adoption of this staff position.

NOTE J – SEGMENT INFORMATION

The following tables present a summary of the Company's reportable segments for the three month periods ended March 31, 2009 and 2008. Financial results for the PLP-USA segment include the elimination of all segments' intercompany profit in inventory.

	Three month period ended March 31	
	2009	2008
Net sales		
PLP-USA	\$ 28,671	\$ 25,007
Australia	5,682	6,905
Brazil	5,192	6,055

All Other	51,978	54,675
Total identifiable assets	<u>\$ 191,272</u>	<u>\$ 190,875</u>

NOTE K – INCOME TAXES

The Company's effective tax rate was 37% and 33% for the three month periods ended March 31, 2009 and 2008, respectively. The higher effective tax rate for the three month period ended March 31, 2009 compared to the statutory tax rate of 34% is primarily due to losses in foreign jurisdictions providing no current tax benefits and the effect of permanent nondeductible expenses in the U.S., partially offset by foreign earnings in jurisdictions with lower tax rates.

The Company provides valuation allowances against deferred tax assets when it is more likely than not that some portion, or all, of its deferred tax assets will not be realized.

As of March 31, 2009, the Company has gross unrecognized tax benefits of approximately \$1.2 million. Under the provisions of FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" the Company may decrease its unrecognized tax benefits by \$.6 million within the next twelve months due to the potential expiration of statutes of limitations. The Company recognized less than \$.1 million of additional unrecognized tax benefits for the three month period ended March 31, 2009.

NOTE L – BUSINESS COMBINATIONS

On May 21, 2008, the Company entered into an agreement for \$.3 million, as goodwill, to form a joint venture between the Company's Australian subsidiary, Preformed Line Products Australia Pty Ltd (PLP-AU) and BlueSky Energy Pty Ltd, a solar systems integration and installation business based in Sydney, Australia. PLP-AU holds a 50% ownership interest in the new joint venture company, which will operate under the name BlueSky Energy Australia (BlueSky), with the option to acquire the remaining 50% ownership interest from BlueSky Energy Pty Ltd over the next five years. BlueSky Energy Pty Ltd has transferred technology and assets to the joint venture. The Company's consolidated balance sheet as of March 31, 2009 reflects the acquisition of the joint venture under the purchase method of accounting and due to the immateriality of the joint venture on the results of operations no additional disclosures are included. The allocation of the purchase price has been finalized.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

Preformed Line Products Company and its subsidiaries (the "Company", "PLPC", "we", "us", or "our") is an international designer and manufacturer of products and systems employed in the construction and maintenance of overhead and underground networks for the energy, telecommunication, cable operators, information (data communication), and other similar industries. Our primary products support, protect, connect, terminate, and secure cables and wires. We also provide solar hardware systems and mounting hardware for a variety of solar power applications. Our goal is to continue to achieve profitable growth as a leader in the innovation, development, manufacture, and marketing of technically advanced products and services related to energy, communications, and cable systems and to take advantage of this leadership position to sell additional quality products in familiar markets.

The reportable segments are PLP-USA, Australia, Brazil, South Africa, Canada, Poland, and All Other. Our PLP-USA segment is comprised of our U.S. operations primarily supporting our domestic energy and telecommunications products. The Australia segment is comprised of all of our operations in Australia supporting energy, telecommunications, data communications and solar products. Our Canada and Poland segments are comprised of the manufacturing and sales operations from those locations which meet at least one of the criteria of a reportable segment. Our final two segments are Brazil and South Africa, which are comprised of a manufacturing and sales operation, and have been included as segments to comply with reporting segments for 75% of consolidated sales. Our remaining operations are included in All Other as none of these operations meet the criteria for a reportable segment and individually represent less than 10% for each of our combined net sales, net income and assets.

DISCONTINUED OPERATION

Our consolidated financial statements were impacted by the divestiture of Superior Modular Products (SMP) on May 30, 2008. We sold our SMP subsidiary for \$11.7 million a \$.8 million gain, net of tax, on the sale of the business, which includes expenses incurred related to the divestiture of SMP, and a holdback of \$1.5 million, which has been received as of March 31, 2009. We do not have any significant continuing involvement in the operations of SMP after the closing of the sale. For tax purposes, the sale of SMP generated a capital loss, which was not deductible except for amounts used to offset capital gains in the current year and from a preceding year. A full valuation allowance was provided against the deferred tax asset on the remaining portion of the capital loss carryover.

The operating results of SMP are presented in our consolidated statements of operations as discontinued operations, net of tax, and all periods presented have been reclassified. For the three month period ended March 31, 2008, income from discontinued operations was \$.1 million, or \$.02 per diluted share.

Preface

Our net sales for the three month period ended March 31, 2009 decreased \$1.2 million, or 2%, and gross profit decreased \$.4 million, or 2%, compared to the three month period ended March 31, 2008. Our net sales decrease was driven by a 14% decrease in total foreign net sales primarily as a result of the effect on the change in currency offset by a 12% increase in the U.S. net sales. The unfavorable effect on the change in the translation rate of local currencies to U.S. dollars compared to 2008 resulted in an \$8.1 million decrease in net sales. Gross profit decreased \$.4 million primarily due to the decrease in net sales. Costs and expenses remained flat as foreign costs and expenses decreased \$1 million, partially offset by an increase in U.S. costs and expenses of \$.9 million. As a result, income from continuing operations, net of tax of \$2.7 million, decreased \$.1 million, compared to the three month period ended March 31, 2008.

THREE MONTH PERIOD ENDED MARCH 31, 2009 COMPARED TO THREE MONTH PERIOD ENDED MARCH 31, 2008

Net Sales. For the three month period ended March 31, 2009, net sales were \$58.7 million, a decrease of \$1.2 million, or 2%, from the three month period ended March 31, 2008 as summarized in the following table:

Three month period ended March 31						
<i>thousands of dollars</i>				Change due to currency translation	Change excluding currency translation	% change
	2009	2008	Change			
Net sales						
PLP-USA	\$ 28,671	\$ 25,007	\$ 3,664	\$ -	\$ 3,664	15 %
Australia	5,682	6,905	(1,223)	(2,097)	874	13
Brazil	5,192	6,055	(863)	(1,758)	895	15
South Africa	1,854	1,601	253	(520)	773	48
Canada	2,355	2,366	(11)	(561)	550	23
Poland	2,958	3,935	(977)	(1,354)	377	10
All Other	11,982	13,996	(2,014)	(1,760)	(254)	(2)
Consolidated	<u>\$ 58,694</u>	<u>\$ 59,865</u>	<u>\$ (1,171)</u>	<u>\$ (8,050)</u>	<u>\$ 6,879</u>	<u>11 %</u>

The increase in PLP-USA net sales of \$3.7 million, or 15%, was primarily due to sales volume increase of \$2.7 million and a price/mix increase of \$2 million related to our energy sales, and an increase in our exports sales of \$.6 million primarily due to product sales mix, partially offset by a sales volume decrease of \$2 million in our communication sales. We anticipate a flat to slight increase in sales for the remainder of 2009, although we believe PLP-USA sales for the year may be negatively affected by a continued declining economy and depressed housing market. International net sales for the three month period ended March 31, 2009 were unfavorably affected by \$8.1 million when converted to U.S. dollars, as a result of a stronger U.S. dollar to certain foreign currencies. Excluding the effect of currency translation, Australia net sales increased \$.9 million, or 13%, primarily as a result of higher volume/mix in energy sales compared to 2008. Excluding the effect of currency translation, Brazil net sales increased \$.9 million, or 15%, primarily as a result of increased volume in energy and telecommunication sales. Excluding the effect of currency translation, South Africa net sales increased \$.8 million, or 48%, primarily as a result of increased volume in energy sales. Excluding the effect of currency translation, Canada net sales increased \$.6 million, or 23%, due to higher sales volume in their markets. Excluding the effect of currency translation, Poland net sales increased \$.4 million primarily due to an increase in sales volume. Excluding the effect of currency translation, All Other net sales decreased \$.3 million, or 2%, due to a decrease in volume. We continue to see competitive pricing pressures globally as well as a decline in the global economy which will continue to negatively affect sales and profitability in 2009.

Gross profit. Gross profit of \$18.6 million for the three month period ended March 31, 2009 decreased \$.4 million, or 2%, compared to the three month period ended March 31, 2008 as summarized in the following table:

Three month period ended March 31						
<i>thousands of dollars</i>				Change due to currency translation	Change excluding currency translation	% change
	2009	2008	Change			
Gross profit						
PLP-USA	\$ 9,320	\$ 8,100	\$ 1,220	\$ -	\$ 1,220	15 %
Australia	1,553	2,030	(477)	(568)	91	4
Brazil	1,437	1,484	(47)	(481)	434	29
South Africa	743	730	13	(209)	222	30
Canada	967	1,010	(43)	(231)	188	19
Poland	941	934	7	(444)	451	48
All Other	3,617	4,717	(1,100)	(601)	(499)	(11)
Consolidated	<u>\$ 18,578</u>	<u>\$ 19,005</u>	<u>\$ (427)</u>	<u>\$ (2,534)</u>	<u>\$ 2,107</u>	<u>11 %</u>

PLP-USA gross profit of \$9.3 million for the three month period ended March 31, 2009 increased \$1.2 million, or 15%,

compared to the three month period ended March 31, 2008. PLP-USA gross profit increased primarily due to higher net sales. Excluding the effect of currency translation, the Australia gross profit increase of \$.1 million was a result of \$.3 million from higher net sales partially offset by higher material costs of \$.2 million. Excluding the effect of currency translation, the Brazil gross profit increased \$.4 million primarily due to a \$.3 million increase in net sales coupled with an improvement in manufacturing efficiencies of \$.2 million partially offset by an increase in material costs of \$.1 million. Excluding the effect of currency translation, South Africa gross profit increased \$.2 million due to \$.3 million from an increase in net sales and a \$.1 million improvement in manufacturing efficiencies partially offset by higher material costs of \$.2 million. Excluding the effect of currency translation, Canada gross profit increased \$.2 million primarily due to increased net sales. Excluding the effect of currency translation, Poland gross profit increase of \$.5 million was the result of \$.2 million from higher net sales, lower material costs of \$.4 million partially offset by increased manufacturing costs of \$.1 million. Excluding the effect of currency translation, All Other gross profit decreased \$.5 million due to higher material costs of \$.3 million coupled with an increase in manufacturing costs of \$.2 million.

Cost and expenses. Cost and expenses for the three month period ended March 31, 2009 decreased \$.1 million, or less than 1%, compared to the three month period ended March 31, 2008 as summarized in the following table:

<i>thousands of dollars</i>	Three month period ended March 31					
	2009	2008	Change	Change due to currency translation	Change excluding currency translation	% change
Costs and expenses						
PLP-USA	\$ 8,632	\$ 7,733	\$ 899	\$ -	\$ 899	12 %
Australia	1,233	1,564	(331)	(452)	121	8
Brazil	1,236	1,270	(34)	(413)	379	30
South Africa	274	231	43	(76)	119	52
Canada	393	447	(54)	(93)	39	9
Poland	411	652	(241)	(175)	(66)	(10)
All Other	2,587	2,932	(345)	(432)	87	3
Consolidated	<u>\$ 14,766</u>	<u>\$ 14,829</u>	<u>\$ (63)</u>	<u>\$ (1,641)</u>	<u>\$ 1,578</u>	<u>11 %</u>

PLP-USA costs and expenses increased \$.9 million primarily due to an increase in personnel related costs of \$.5 million, consulting expense of \$.2 million, commissions related to higher sales of \$.3 million and decrease in the cash surrender value of life insurance policies of \$.5 million partially offset by a decrease in travel, audit, tax compliance and advertising expenses of \$.6 million. Excluding the effect of currency translation, Australia costs and expenses increased \$.1 million primarily due to higher personnel related costs due to the BlueSky Energy Pty Ltd acquisition on May 21, 2008. Excluding the effect of currency translation, Brazil costs and expenses increased \$.4 million primarily due to personnel related costs. Excluding the effect of currency translation, South Africa's costs and expenses increased \$.1 million primarily due to personnel related costs. Excluding the effect of currency translation, Canada costs and expenses remained relatively flat compared to 2008. Excluding the effect of currency translation, Poland's costs and expenses decreased \$.1 million primarily due to personnel related costs. Excluding the effect of currency translation, All Other costs and expenses increased \$.1 million primarily due to personnel related costs.

Operating income. Operating income of \$3.8 million for the three month period ended March 31, 2009 decreased \$.4 million, or 9%, compared to the three month period ended March 31, 2008 primarily due to the \$.4 million decrease in gross profit partially offset by the decrease in costs and expenses. PLP-USA operating income increased \$.2 million primarily as a result of the \$1.2 million increase in gross profit partially offset by a \$.9 million increase in costs and expenses. Australia operating income decreased \$.1 million as a result of the \$.5 million decrease in gross profit partially offset by a \$.3 million decrease in costs and expenses and intercompany royalty expense of \$.1 million. Brazil operating income decreased \$.1 million primarily as a result of the \$.1 million decrease in gross profit. South Africa and Canada operating income remained relatively unchanged compared to the three month period ended March 31, 2008. Poland operating income increased \$.2 million primarily as a result of an increase in gross profit. All Other operating income decreased \$.7 million primarily as a result of the \$1.1 million decrease in gross profit partially offset by the \$.3 million decrease in cost and expenses.

Other income. Other income for the three month period ended March 31, 2009 of \$.5 million increased \$.4 million compared to the three month period ended March 31, 2008. The increase in other income is primarily related to the discovery of natural gas at our corporate headquarters property in Mayfield Village, Ohio. Production of the natural gas well commenced in May 2008.

Income taxes. Income taxes for the three month period ended March 31, 2009 of \$1.6 million increased by \$.2 million compared, to the same period in 2008. The effective tax rate for the three month period ended March 31, 2009 was 37% compared to 33% in the three month period ended March 31, 2008. The effective tax rate for 2009 is greater than the statutory federal rate of 34% primarily due to the losses in foreign jurisdictions providing no current tax benefits, the effect of permanent nondeductible expenses in the U.S., partially offset by the favorable benefit from foreign earnings in jurisdictions with lower tax rates.

Income from continuing operations, net of tax. As a result of the preceding items, income from continuing operations, net of tax for the three month period ended March 31, 2009 was \$2.7 million, compared to income from continuing operations, net of tax of \$2.8 million, for the three month period ended March 31, 2008 as summarized in the following table:

	Three month period ended March 31					
	2009	2008	Change	Change due to currency translation	Change excluding currency translation	% change
<i>thousands of dollars</i>						
Income from continuing operations						
PLP-USA	\$ 1,156	\$ 878	\$ 278	\$ -	\$ 278	32 %
Australia	50	88	(38)	(16)	(22)	(25)
Brazil	94	120	(26)	(32)	6	5
South Africa	307	323	(16)	(88)	72	22
Canada	322	301	21	(77)	98	33
Poland	425	200	225	(210)	435	218
All Other	363	924	(561)	(124)	(437)	(47)
Consolidated	<u>\$ 2,717</u>	<u>\$ 2,834</u>	<u>\$ (117)</u>	<u>\$ (547)</u>	<u>\$ 430</u>	<u>15 %</u>

PLP-USA income from continuing operations, net of tax increased \$.3 million primarily as a result of the \$.2 million increase in operating income coupled with an increase in other income of \$.4 million, partially offset by an increase in income tax expense. Australia, Brazil and South Africa income from continuing operations, net of tax decreased due to a decrease in operating income compared to 2008. Canada income from continuing operations, net of tax remained relatively flat compared to 2008. Poland income from continuing operations, net of tax increased \$.2 million primarily as a result of a \$.2 million increase in operating income compared to 2008. All Other income from continuing operations, net of tax decreased \$.6 million primarily as a result of the \$.7 million decrease in operating income partially offset by a decrease in income tax expense.

APPLICATION OF CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our critical accounting policies are consistent with the information set forth in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, included in our Form 10-K for the year ended December 31, 2008 and are, therefore, not presented herein.

WORKING CAPITAL, LIQUIDITY AND CAPITAL RESOURCES

Cash increased \$.9 million for the three month period ended March 31, 2009. Net cash provided by operating activities was \$3.6 million primarily because of net income, depreciation, an increase in trade payables and accrued liabilities partially offset by an increase in accounts receivable. The major investing and financing uses of cash were \$2.2 million in capital expenditures, \$1.1 million in dividend payments, and \$.2 million in net debt repayments offset by cash proceeds of \$.8 million related to the sale of SMP.

Net cash used in investing activities of \$1.4 million represents a decrease of \$2.2 million when compared to the cash used for investing activities in the three month period ended March 31, 2008. In May 2008, we sold the SMP operations and received the remaining \$.8 million in escrow during the first quarter of 2009. Capital expenditures decreased \$1.5 million in the three month period ended March 31, 2009 when compared to the same period in 2008 due mostly to a solar installation project at our Spain subsidiary, additional machinery investment at our Poland subsidiary, and a building expansion at our China subsidiary all during 2008.

Cash used in financing activities was \$.8 million compared to \$2 million in the three month period ended March 31, 2008. This decrease was primarily a result of \$.2 million in net debt borrowings in 2009 compared to \$.8 million in net debt repayments in 2008.

Our current ratio was 3.1 to 1 at March 31, 2009 and 3.2 to 1 at December 31, 2008. At March 31, 2009, our unused balance under our main credit facility was \$20 million and our bank debt to equity percentage was 5%. Our main revolving credit agreement contains, among other provisions, requirements for maintaining levels of working capital, net worth, and profitability. At March 31, 2009, we were in compliance with these covenants. We believe our future operating cash flows will be more than sufficient to cover debt repayments, other contractual obligations, capital expenditures and dividends. In addition, we believe our existing cash of \$20.8 million, together with our untapped borrowing capacity, provides substantial financial resources. If we were to incur significant additional indebtedness, we expect to be able to meet liquidity needs under our credit facilities. We do not believe we would increase our debt to a level that would have a material adverse impact upon results of operations or financial condition.

RECENTLY ADOPTED ACCOUNTING PRONOUNCEMENTS

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities" (SFAS 161). SFAS 161 requires companies with derivative instruments to disclose information on how derivative instruments and related hedged items are accounted for under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities, and how derivative instruments and related hedged items affect a Company's financial position, financial performance and cash flows." SFAS 161 was effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The adoption of SFAS 161 did not have a material impact on our financial condition, results of operations, or cash flows.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51" (SFAS 160). This standard amends ARB No. 51 to establish accounting and reporting for the noncontrolling interest in a subsidiary and for deconsolidation of a subsidiary. It also amends certain of ARB No. 51's consolidation procedures for consistency with the requirements of SFAS No. 141R, "Business Combinations." This standard became effective on January 1, 2009. As SFAS 160 is applied prospectively to future business combinations, the only impact to us is the retroactive presentation and disclosure requirements for all periods presented on our consolidated financial statements of noncontrolling interests.

In December 2007, the FASB issued SFAS No. 141R, "Business Combinations" (SFAS 141R). SFAS 141R revises the principles and requirements for how the acquirer recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, any noncontrolling interest in the acquiree and the goodwill acquired in a business combination or gain from a bargain purchase. SFAS 141R also revises the principles and requirements for how the acquirer determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. This pronouncement became effective as of January 1, 2009. The adoption of this statement will only impact our consolidated financial statements to the extent we enter into a business acquisition in the future.

In April 2008, the FASB issued FAS 142-3, "Determination of the Useful Life of Intangible Assets" (FSP 142-3). FSP 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, "Goodwill and Other Intangible Assets" (SFAS 142). The intent of FSP 142-3 is to improve the consistency between the useful life of a recognized intangible asset under SFAS 142 and the period of expected cash flows used to measure the fair value of the asset under SFAS 141R and other U.S. generally accepted accounting principles. FSP 142-3 applies prospectively to business combinations for which the acquisition date is

on or after the beginning of the first annual reporting period beginning after December 15, 2008. The adoption of this statement will only impact our consolidated financial statements to the extent we enter into a business acquisition in the future.

In June 2008, the FASB issued FSP No. Emerging Issues Task Force (EITF) 03-6-1, "Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities" (FSP EITF 03-6-1). FSP EITF 03-6-1 provides that unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of earnings per share pursuant to the two-class method in SFAS No. 128, "Earnings per Share." We adopted FSP EITF 03-6-1 as of January 1, 2009. The adoption of FSP EITF 03-6-1 did not have an impact on our consolidated financial statements.

In April 2009, the FASB issued FSP 141R-1, "Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies" (FSP 141R-1). FSP 141R-1 amends and clarifies SFAS 141R to require that an acquirer recognize at fair value, at the acquisition date, an asset acquired or a liability assumed in a business combination that arises from a contingency if the acquisition-date fair value of that asset or liability can be determined during the measurement period. If the acquisition-date fair value of such an asset acquired or liability assumed cannot be determined, the acquirer should apply the provisions of SFAS 5, "Accounting for Contingencies," to determine whether the contingency should be recognized at the acquisition date or after it. FSP 141R-1 is effective for assets or liabilities arising from contingencies in business combinations for which the acquisition date is after the beginning of the first annual reporting period beginning after December 15, 2008. Accordingly, we adopted FSP 141R-1 at the same time as SFAS 141R. The adoption of this statement will only impact our consolidated financial statements to the extent we enter into a business acquisition in the future.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In April 2009, the FASB issued FSP No. 107-1 and APB 28-1, "Interim Disclosures about Fair Value of Financial Instruments" (FSP FAS 107-1 and APB 28-1), which amends FASB Statement No. 107, "Disclosures about Fair Value of Financial Instruments" and APB Opinion No. 28, "Interim Financial Reporting," to require disclosures about the fair value of financial instruments for interim reporting periods. FSP FAS 107-1 and APB 28-1 will be effective for interim reporting periods ending after June 15, 2009. We believe the adoption of this staff position will not have a material impact on our financial position or results of operation.

In April 2009, the FASB issued FSP No. 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly" (FSP FAS 157-4), which provides additional guidance in accordance with FAS 157, when the volume and level of activity for the asset or liability has significantly decreased. FSP FAS 157-4 will be effective for interim and annual reporting periods ending after June 15, 2009. We have not determined the impact of our adoption of this staff position.

In April 2009, the FASB issued FSP No. FAS 115-2 and FAS 124-2, "Recognition and Presentation of Other-Than-Temporary Impairments" (FSP FAS 115-2 and FAS 124-2), which amends the other-than-temporary impairment guidance for debt and equity securities. FSP FAS 115-2 and FAS 124-2 shall be effective for interim and annual reporting periods ending after June 15, 2009. We have not determined the impact of our adoption of this staff position.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company operates manufacturing facilities and offices around the world and uses fixed and floating rate debt to finance the Company's global operations. As a result, the Company is subject to business risks inherent in non-U.S. activities, including political and economic uncertainty, import and export limitations and market risk related to changes in interest rates and foreign currency exchange rates. The Company believes the political and economic risks related to the Company's international operations are mitigated due to the stability of the countries in which the Company's largest international operations are located.

The Company has no foreign currency forward exchange contracts outstanding at March 31, 2009. The Company does not hold derivatives for trading purposes.

The Company is exposed to market risk, including changes in interest rates. The Company is subject to interest rate risk on its variable rate revolving credit facilities and term notes, which consisted of borrowings of \$6.2 million at March 31, 2009. A 100 basis point increase in the interest rate would have resulted in an increase in interest expense of less than \$.1 million for the three month period ended March 31, 2009.

The Company's primary currency rate exposures are related to foreign denominated debt, intercompany debt, forward exchange contracts, foreign denominated receivables and cash and short-term investments. A hypothetical 10% change in currency rates would have a favorable/unfavorable impact on fair values on such instruments of \$2.2 million and on income before tax of less than \$.1 million.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

An evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer and Vice President - Finance, of the effectiveness of the Company's disclosure controls and procedures (as defined in Securities and Exchange Act Rules 13a-15(e) and 15d-15(e)) as of March 31, 2009. Based on the evaluation, the Company's management, including the Chief Executive Officer and Chief Financial Officer and Vice President - Finance, concluded that the Company's disclosure controls and procedures were effective as of March 31, 2009.

Changes in Internal Control over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f)) during the quarter ended March 31, 2009 that materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is subject to various legal proceedings and claims that arise in the ordinary course of business. In the opinion of management, the amount of any ultimate liability with respect to these actions will not materially affect our financial condition, results of operations or cash flows.

ITEM 1A. RISK FACTORS

There were no material changes from the risk factors previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2008 filed on March 13, 2009.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On February 15, 2007, the Board of Directors authorized a plan to repurchase up to 200,000 shares of Preformed Line Products Company, superseding any previously authorized plan, including the December 2004 plan. The repurchase plan does not have an expiration date. The following table includes repurchases for the three-month period ended March 31, 2009.

<u>Period (2009)</u>	<u>Total Number of Shares Purchased</u>	<u>Average Price Paid per Share</u>	<u>Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs</u>	<u>Maximum Number of Shares that may yet be Purchased under the Plans or Programs</u>
January	-	-	185,748	14,252
February	-	-	185,748	14,252
March	-	-	185,748	14,252
Total	-	-		

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

18.1 Preferability Letter for Change in Method of Depreciation of Ernst & Young LLP, filed herewith.

31.1 Certifications of the Principal Executive Officer, Robert G. Ruhlman, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002, filed herewith.

32.1 Certification of the Principal Executive Officer, Robert G. Ruhlman, pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, furnished.

32.2 Certification of the Principal Accounting Officer, Eric R. Graef, pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, furnished.

FORWARD LOOKING STATEMENTS

Cautionary Statement for “Safe Harbor” Purposes Under The Private Securities Litigation Reform Act of 1995

This Form 10-Q and other documents the Company files with the Securities and Exchange Commission contain forward-looking statements regarding the Company’s and management’s beliefs and expectations. As a general matter, forward-looking statements are those focused upon future plans, objectives or performance (as opposed to historical items) and include statements of anticipated events or trends and expectations and beliefs relating to matters not historical in nature. Such forward-looking statements are subject to uncertainties and factors relating to the Company’s operations and business environment, all of which are difficult to predict and many of which are beyond the Company’s control. Such uncertainties and factors could cause the Company’s actual results to differ materially from those matters expressed in or implied by such forward-looking statements.

The following factors, among others, could affect the Company’s future performance and cause the Company’s actual results to differ materially from those expressed or implied by forward-looking statements made in this report:

- The overall demand for cable anchoring and control hardware for electrical transmission and distribution lines on a worldwide basis, which has a slow growth rate in mature markets such as the United States, Canada, and Western Europe;
- The ability of our customers to raise funds needed to build the facilities their customers require;
- Technological developments that affect longer-term trends for communication lines such as wireless communication;
- The decreasing demands for product supporting copper-based infrastructure due to the introduction of products using new technologies or adoption of new industry standards;
- The Company’s success at continuing to develop proprietary technology to meet or exceed new industry performance standards and individual customer expectations;
- The Company’s success in strengthening and retaining relationships with the Company’s customers, growing sales at targeted accounts and expanding geographically;
- The extent to which the Company is successful in expanding the Company’s product line into new areas;
- The Company’s ability to identify, complete and integrate acquisitions for profitable growth;
- The potential impact of consolidation, deregulation and bankruptcy among the Company’s suppliers, competitors and customers;
- The relative degree of competitive and customer price pressure on the Company’s products;
- The cost, availability and quality of raw materials required for the manufacture of products;
- The effects of fluctuation in currency exchange rates upon the Company’s reported results from international operations, together with non-currency risks of investing in and conducting significant operations in foreign countries, including those relating to political, social, economic and regulatory factors;
- Changes in significant government regulations affecting environmental compliances;
- The telecommunication market’s continued deployment of Fiber-to-the-Premises;
- The Company’s ability to obtain funding for future acquisitions;

- The potential impact of the depressed housing market on the Company's ongoing profitability and future growth opportunities;
- Those factors described under the heading "Risk Factors" on page 12 of the Company's Annual Report on Form 10-K for the year ended December 31, 2008 filed on March 13, 2009.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

EXHIBIT INDEX

- 18.1 Preferability Letter for Change in Method of Depreciation of Ernst & Young LLP, filed herewith.
- 31.1 Certifications of the Principal Executive Officer, Robert G. Ruhlman, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002, filed herewith.
- 31.2 Certifications of the Principal Financial Officer, Eric R. Graef, pursuant to Section 302 of the Sarbanes-Oxley Act of 2002, filed herewith.
- 32.1 Certification of the Principal Executive Officer, Robert G. Ruhlman, pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, furnished.
- 32.2 Certification of the Principal Accounting Officer, Eric R. Graef, pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, furnished.

May 7, 2009

Mr. Eric R. Graef
Chief Financial Officer and
Vice President - Finance
Preformed Line Products Company

Dear Sir:

Note B of Notes to the consolidated financial statements of Preformed Line Products Company included in its Form 10-Q for the three months ended March 31, 2009 describes a change in the method of accounting for depreciating property and equipment from an accelerated method to a straight-line method for the Company's PLP-USA assets. There are no authoritative criteria for determining a 'preferable' depreciation method based on the particular circumstances; however, we conclude that such change in the method of accounting is to an acceptable alternative method which, based on your business judgment to make this change and for the stated reasons, is preferable in your circumstances. We have not conducted an audit in accordance with the standards of the Public Company Accounting Oversight Board (United States) of any financial statements of the Company as of any date or for any period subsequent to December 31, 2008, and therefore we do not express any opinion on any financial statements of Preformed Line Products Company subsequent to that date.

Very truly yours,

/s/ Ernst & Young LLP

Ernst & Young LLP

CERTIFICATION PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Robert G. Ruhlman, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Preformed Line Products Company;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and we have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
