PLP® Distribution Products RAPTOR PROTECTOR™

Description

The RAPTOR PROTECTOR is designed to provide protection from incidental avian contact with overhead distribution lines. It provides an economical means of reducing bird fatalities and line outages when installed over single or double pin or post tie top insulators.

Manufactured from linear low density polyethylene (LLDPE)

- Fully UV stabilized
- Low temperature impact resistant
- Environmental stress crack resistance

Application

Installs on single insulator in seconds

Quick modification for double insulators

- Accommodates 6.5" - 22" insulator center to center distance

Round Eye Locking Pins

- Easily installed by hand or hot stick
- Ensures positive lock on conductor

Features

- One piece design
- Lightweight
- Low profile
- Unobtrusive appearance
- Minimized wind loading
- Flexible to handle line angles up to 10°
- Modifiable for use on double cross arm construction
- Covers C, F, and J-Neck insulators
- Long service life without deterioration of material
- 42 kV dielectric strength
