TAP™ PROTECTOR RODS

Description

TAP™ Protector Rods are applied on the conductor where bolted hot line tap clamps are to be installed. TAP Protector Rods provide reinforcement to the conductor, designed to reduce the possibility of conductor damage due to bending stress, clamping stress, or abrasion.

TAP™ Protector Rods are for aluminum based conductors.

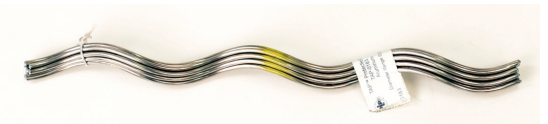

- Manufactured from strong, fatigue resistant aluminum alloy
- RUS-approved product for standard construction methods

Application

- Easily installed by hand or hot sticks
- Limited conductor preparation required

Features

- Better current transfer capabilities
- Reduces clamping stress on the conductor
- Lightweight
- Minimum rod lengths
