

Tangent Supports

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

Standard Loop and Elongated Loop Tangent Supports are intended to protect and separate one-pair aerial wires on a common drive hook. They accomplish this in the safest, easiest way possible: just wrap them on and hang them up.

Features

- Wrap on in seconds
- No tools required
- Provide long, trouble-free service
