

LEGAL NOTICE:

PLP's inspection was performed through visual assessment techniques only and is limited in its ability to identify underlying causes of problems along with the presence and state of internal defects. Any impediments to visual inspection, including but not limited to ice, nest, trees, will limit PLP's ability to assess that portion, and PLP disclaims any liability based on its inability to discover issues that are blocked from view. PLP's analysis and recommendations are based solely on the information made available to it. All inspections are subject to PLP's Standard Terms and Conditions of Inspection Services and PLP disclaims all other liability. PLP offers several products for repairing transmission and distribution lines. Please refer to preformed.com for more information.

No part of this document may be disclosed, printed, copied, or disseminated in any form or by any means, to any third party without PLP's prior written consent.
